Mohamad Ikhsan Nurulloh

Data Engineer | Business Intelligence | Data Scientist | Machine
Learning | Cloud Engineer | Data Analyst | Tableau | Power BI | GCP
| Azure | AWS | Alibaba Cloud

Jakarta Metropolitan Area

Summary

Mohamad Ikhsan Nurulloh is a data professional with six years of experience across Business Intelligence, Data Science, Analytics, Machine Learning, and Cloud Engineering. He builds scalable data solutions, develops user-friendly dashboards, and ensures data quality through strong expertise in SQL, ETL processes, and data warehousing. With a solid understanding of business strategy, he delivers actionable insights and predictive solutions to support informed decision-making. He is experienced in using GCP, AWS, and Azure to implement efficient and scalable cloud-based data platforms.

Experience

Accord Innovations

Senior Business Intelligence

November 2023 - Present (2 years 8 months)

Jakarta, Indonesia

Leading end-to-end BI, Data Science, Analytics, and Machine Learning initiatives by architecting scalable data platforms, developing robust ETL pipelines, and delivering cloud-based analytics, predictive modeling, and visualization solutions aligned with business objectives.

dibimbing.id

5 months

Product Manager Mentor

November 2023 - November 2023 (1 month)

Jakarta Metropolitan Area

- Strategic expertise in product analytics: cohort analysis, retention, churn, funnel optimization.
- Proficient in data visualization tools for impactful insights.

Business Intelligence Mentor

July 2023 - November 2023 (5 months)

Jakarta Metropolitan Area

- Introducing students to BI concepts for making data-driven decisions.
- Instructing students on creating effective business documents.
- Providing hands-on experience with various BI tools and their applications.
- Teaching effective data warehousing for making business decisions.
- Practical ETL Process for Data Preparation.

PT. CYBERTREND INTRABUANA

Business Intelligence Developer

March 2022 - November 2023 (1 year 9 months)

Jakarta Selatan, Jakarta, Indonesia

As a Business Intelligence Developer, I excel in both front-end and back-end tasks. On the front-end, I am skilled in creating engaging dashboards using Tableau and Power BI for intuitive data visualization. In the back-end, I leverage my expertise in SQL and ETL to ensure high data quality and seamless integration, enabling efficient analysis and real-time access. Furthermore, I possess the ability to design robust and scalable business intelligence infrastructure and architecture. My strong business acumen allows me to align BI with strategic goals, delivering actionable insights for data-driven decision-making and improved business efficiency.

Business Intelligence Projects:

- Tugu Insurance (Data Analyst)
- CIMB Niaga Finance (PoC Data Analyst)
- PT Bukit Asam Tbk (Team Lead, consist of Data Analyst, Data Engineer, Data Scientist, Technical Engineer)
- PT Timah Tbk (BI Developer)
- Mining Industry Indonesia (MIND ID) (Business Analyst & BI Developer)
- Kemenkeu (Data Analyst)
- PT Indo Tambangraya Megah Tbk (Advisor Power BI)

Business Intelligence Facilitator:

- KEMENPANRB (Tableau Prep)
- DTO Kemenkes (Google Data Studio)
- BKKBN (Tableau)
- BNN (Tableau)
- PT Vale Indonesia Tbk (Power BI)
- PT Bukit Asam Tbk (Tableau)

Schoters

Data Analyst

August 2019 - August 2021 (2 years 1 month)

Jakarta Selatan, Jakarta, Indonesia

- Utilized data analytics tools to optimize business processes, reducing time waste, and improving data quality.
- Created compelling visualizations by consolidating and analyzing data from various sources, facilitating strategic decision-making.
- Led online and blended learning curriculum development, leveraging data-driven insights to design engaging courses for 1,000+ users.
- Proactively managed projects, identifying and resolving potential delays through data-backed recommendations.

Eijkman Institute

Bioinformatics Data Analyst

October 2017 - February 2019 (1 year 5 months)

Jalan Diponegoro 69, Jakarta 10430, Indonesia

- Utilized data insight techniques to gain deeper understanding from genetic data analysis using Python and R.
- Employed data-driven methodologies in the manipulation and statistical analysis of Malaria and Single Nucleotide Polymorphisms research, revealing key genetic insights.
- As part of a collaborative bioinformatics lab, I harnessed the power of data-driven approaches to extract meaningful patterns and correlations, contributing to groundbreaking discoveries in the field of genetics.

Education

Indonesia Defense University

Master's degree, Defence Industry (Equivalent to Industrial Engineering) · (August 2020 - March 2022)

Universitas Negeri Semarang

Bachelor of Biology, Bioinformatics · (2014 - 2019)

Universitas Gadjah Mada (UGM)

Non-degree, Social Entrepreneurship · (February 2021)

Education and Training Center for State Defense of Indonesian
Ministry of Defense
